NET SCORE

## Sentiment mix

## Net sentiment gauge

## Key insights

- ▶ **Mixed - room to improve.** Net sentiment score of 0 across 5 reviews.
- ▶ 40% of reviewers expressed positive sentiment.
- ▶ ⚠ **1 negative review with ≥85% model confidence** - treat as confirmed complaints and respond first.
- ▶ Positivity ratio is **1.0:1** (positive to negative).
- ▶ **1 review was ambiguous** (20.0% of the batch; top two labels within 15% of each other). Treat those labels as a coin-flip and read the text yourself before acting on them.

## ⚠ Needs attention - top negative reviews

Negative

"Grabe ang panget ng packaging, basag na basag."

93% confidence

Negative

"Medyo matagal ang paghihintay at malamig na ang ulam."

81% confidence

## ♥ What's working - top positive reviews

Positive

"Sulit na sulit, babalik ulit ako dito pramis"

96% confidence

Positive

"Ang bilis ng delivery at ang sarap ng food!"

95% confidence

## Recommended actions

1. Address the leading complaint directly - "Grabe ang panget ng packaging, basag na basag." appears to be the strongest negative signal.
2. Amplify what works - customers explicitly praised "Sulit na sulit, babalik ulit ako dito pramis". Feature it in marketing.
3. Reply to every high-confidence negative review within 24h; public, empathetic replies recover visible sentiment faster than silent fixes.
4. Re-run this report monthly and track the net score trend - direction matters more than any single reading.
